Endumeni Municipality
ANNUAL FINANCIAL STATEMENTS
for the year ended 30 June 2017

Approval of annual financial statements

I am responsible for the preparation of these annual financial statements, which are set out on **pages 5 to 64**, in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months. The municipality however faces challenges of debtor non-payment and the high rate of electricity losses due to theft.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in note 27 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Acting Municipal Manager: Mr LB Mpontshane

31 August 2017

Endumeni Municipality
SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES
as at 30 June 2017

1 ACCOUNTING POLICIES

1.1 BASIS OF ACCOUNTING

BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

These annual financial statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), as approved by the Minister of Finance, including any interpretations, guidelines and directives issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant policy.

PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months. The municipality however faces challenges of debtor non-payment for municipal services and a high rate of electricity losses due to theft. This may have future implications on the operations of the municipality

COMPARATIVE INFORMATION

Budget information in accordance with GRAP 1 and 24, has been provided to these financial statements and forms part of the annual financial statements.

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

The following Standards of GRAP and interpretations of Standards of GRAP approved have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 32 - Service Concession Arrangements: Grantor

GRAP 108 - Statutory Receivables

IGRAP 17 - Service Concession Arrangements where a Grantor Controls a Significant Residual Interest in an Asset

GRAP 18 - Segment Reporting

GRAP 20 - Related Party Disclosures

Management have considered all of the above-mentioned GRAP standards approved or issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

1.2 PROPERTY, PLANT AND EQUIPMENT

INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets when:

- it is probable that future economic benefits or service potential associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

INITIAL MEASUREMENT

Items of property, plant and equipment are initially measured at cost at the acquisition date.

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

SUBSEQUENT EXPENDITURE

Where the entity replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequent expenditure including major spare parts and servicing equipment qualify as property, plant and equipment if the recognition criteria are met.

SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

DEPRECIATION

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciable amount is determined after taking into account an assets' residual value, where applicable. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated average asset lives:

Infrastructure		Other	
Roads and Paving	3 - 100 years	Machinery and equipment	3 - 20 years
Electricity	3 - 80 years	Furniture and Equipment	3 - 50 years
Water	5 - 100 years	Motor Vehicles	4 - 20 years
Sewerage	10 - 60 years	Buildings	5 - 30 years
Other	10 - 30 years		

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

DERECOGNITION

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.3 HERITAGE ASSETS

INITIAL RECOGNITION

Heritage assets are assets that have a cultural, environmental, historical, natural, scientific, technological or artistic significance and are held indefinitely for the benefit of present and future generations.

A heritage asset shall be recognised as an asset if, and only if:

- (a) it is probable that future economic benefits or service potential associated with the asset will flow to the entity, and
- (b) the cost or fair value of the asset can be measured reliably.

INITIAL MEASUREMENT

An asset that has met the recognition requirement criteria for heritage assets shall be measured at its cost if such an asset has been acquired through an exchange transaction.

Where a heritage asset has been acquired through a non-exchange transaction, its cost shall be measured at its fair value as at the date of acquisition.

SUBSEQUENT MEASUREMENT

Heritage assets are not depreciated based on their nature however the municipality assesses at each reporting date whether there is a need for impairment.

The class of heritage assets are carried at its cost less any accumulated impairment losses.

DERECOGNITION

The carrying amount of a heritage asset is derecognised:

- (a) on disposal, or
- (b) when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of a heritage asset shall be determined as the difference between the net disposal proceeds, if any, and the carrying amount of the heritage asset. Such difference is recognised in surplus or deficit when the heritage asset is derecognised.

1.4 INTANGIBLE ASSETS

INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licences, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential;
- the municipality has the ability to measure reliably the expenditure during development.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

SUBSEQUENT MEASUREMENT

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

AMORTISATION

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average asset lives:

Computer software	2 - 5 years
-------------------	-------------

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

IMPAIRMENT

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

1.5 INVESTMENT PROPERTY

INITIAL RECOGNITION

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

Investment Property is initially recognised when future economic benefits or service potential are probable and the cost or fair value can be determined reliably.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed investment property is the cost at date of completion.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner occupied property (property, plant and equipment), the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the entity accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change in use.

SUBSEQUENT MEASUREMENT

Investment property is subsequently measured at fair value model. The fair value of investment property is based on the valuation roll values of the local municipality in whose jurisdiction the investment property is situated. Fair value is adjusted when a new valuation roll is implemented by the local municipality for property tax purposes. A gain or loss arising from a change in fair value is included in net surplus or deficit for the period in which it arises.

DERECOGNITION

Investment property is derecognised when there is a disposal or no future economic benefits or service potential are to be derived from the property.

All gains or losses, which result from the derecognition, are recognised in the Statement of Financial Performance.

1.6 INVENTORIES

INITIAL RECOGNITION AND MEASUREMENT

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

SUBSEQUENT MEASUREMENT

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of determining cost is the weighted-average method.

DERECOGNITION

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

1.7 FINANCIAL INSTRUMENTS

INITIAL RECOGNITION

The entity recognises a financial asset or a financial liability in its Statement of Financial Position when, and only when, the entity becomes a party to the contractual provisions of the instrument.

Upon initial recognition the entity classifies financial instruments or their component parts as a financial liabilities, financial assets or residual interests in conformity with the substance of the contractual arrangement and to the extent that the instrument satisfies the definitions of a financial liability, a financial asset or a residual interest.

INITIAL MEASUREMENT

When a financial instrument is recognised, the entity measures it initially at its fair value plus, in the case of a financial asset or a financial liability not subsequently measured at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

SUBSEQUENT MEASUREMENT

Subsequent to initial recognition, financial assets and financial liabilities are measured at fair value, amortised cost or cost.

All financial assets and financial liabilities are measured after initial recognition using the following categories:

INVESTMENTS AT AMORTISED COSTS

Investments, which include fixed deposits and short-term deposits invested in registered commercial banks are categorised as financial instruments at amortised cost and are subsequently measured at amortised cost.

Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

INVESTMENT AT FAIR VALUE

Investments, which represent investments in residual interest for which fair value can be measured reliably, are subsequently measured at fair value.

Gains and losses in the fair value of such investments are recognised in the Statement of Financial Performance.

INVESTMENT AT COST

Investments at cost, which represent investments in residual interest for which there is no quoted market price and for which fair value cannot be measured reliably, are subsequently measured at cost.

TRADE AND OTHER RECEIVABLES

Trade and other receivables are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition and subsequently stated at amortised cost, less provision for impairment. All trade and other receivables are assessed at least annually for possible impairment. Impairments of trade and other receivables are determined in accordance with the accounting policy for impairments. Impairment adjustments are made through the use of an allowance account.

Bad debts are written off in the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the reporting date are classified as current. Interest is charged on overdue accounts.

TRADE PAYABLES AND BORROWINGS

Trade payables are initially measured at fair value plus transaction costs that are directly attributable to the acquisition and are subsequently measured at amortised cost using the effective interest rate method.

CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

IMPAIRMENT OF FINANCIAL ASSETS

All financial assets measured at amortised cost, or cost, are subject to an impairment review. The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

IMPAIRMENT FOR FINANCIAL ASSETS HELD AT AMORTISED COST

The entity first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant and individually or collectively for financial assets that are not individually significant. If the entity determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is or continues to be recognised are not included in the collective assessment of impairment.

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss shall be reversed either directly or by adjusting an allowance account. The reversal shall not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

IMPAIRMENT OF FINANCIAL ASSETS HELD AT COST

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

DERECOGNITION

A financial asset is derecognised only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset;
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer.

A financial liability is derecognised when the obligation is extinguished. Exchanges of debt instruments between a borrower and a lender are treated as the extinguishment of an existing liability and the recognition of a new financial liability. Where the terms of an existing financial liability are modified, it is also treated as the extinguishment of an existing liability and the recognition of a new liability.

1.71 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.72 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.73 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.74 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

1.75 BUDGET INFORMATION

The annual budget figures have been presented in accordance with the GRAP reporting framework. A separate statement of comparison of budget and actual amounts, which forms part of the annual financial statements has been prepared. The comparison of budget and actual amount will be presented on the same accounting basis, same classification basis and for the same entity and period as for the approved budget. The budget of the municipality is taken for a stakeholder consultative process and upon approval the approved budget is made publicly available

Material differences in terms of the basis, timing or entity have been disclosed in the notes to the annual financial statements.

The most recent approved budget by Council is the final budget for the purpose of comparison with the actual amounts.

1.76 LEASES

MUNICIPALITY AS LESSEE

RECOGNITION

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the entity through the lease agreement. Assets subject to finance leases are recognised in the Statement of Financial Position at the inception of the lease, as is the corresponding finance lease liability.

Assets subject to operating leases, i.e. those leases where substantially all of the risks and rewards of ownership are not transferred to the lessee through the lease, are not recognised in the Statement of Financial Position. The operating lease expense is recognised over the course of the lease arrangement.

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date; namely whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

MEASUREMENT

Assets subject to a finance lease, as recognised in the Statement of Financial Position, are measured (at initial recognition) at the lower of the fair value of the assets and the present value of the future minimum lease payments. Subsequent to initial recognition these capitalised assets are depreciated over the contract term.

The finance lease liability recognised at initial recognition is measured at the present value of the future minimum lease payments. Subsequent to initial recognition this liability is carried at amortised cost, with the lease payments being set off against the capital and accrued interest. The allocation of the lease payments between the capital and interest portion of the liability is effected through the application of the effective interest method.

The finance charges resulting from the finance lease are expensed, through the Statement of Financial Performance, as they accrue. The finance cost accrual is determined using the effective interest method.

The lease expense recognised for operating leases is charged to the Statement of Financial Performance on a straight-line basis over the term of the relevant lease. To the extent that the straight-lined lease payments differ from the actual lease payments the difference is recognised in the Statement of Financial Position as either lease payments in advance (operating lease asset) or lease payments payable (operating lease liability) as the case may be. This resulting asset and / or liability is measured as the undiscounted difference between the straight-line lease payments and the contractual lease payments.

DERECOGNITION

The finance lease liabilities are derecognised when the entity's obligation to settle the liability is extinguished. The assets capitalised under the finance lease are derecognised when the entity no longer expects any economic benefits or service potential to flow from the asset.

The operating lease liability is derecognised when the entity's obligation to settle the liability is extinguished. The operating lease asset is derecognised when the entity no longer anticipates economic benefits to flow from the asset.

MUNICIPALITY AS LESSOR

RECOGNITION

For those leases that meet the definition of a finance lease, where the entity is the lessor, the entity derecognises the asset subject to the lease at the inception of the lease. Along with the derecognition of the asset the entity recognises a finance lease receivable. Finance lease income is allocated to between the finance lease receivable and finance income using the effective interest rate method and the resulting finance income is recognised in the Statement of Financial Performance as it accrues.

For those leases classified as operating leases the asset subject to the lease is not derecognised and no lease receivable is recognised at the inception of the lease. Lease payments received under an operating lease are recognised as income, in the Statement of Financial Performance, in the period that the income accrues.

The determination of whether an arrangement is, or contains, a lease is based on the substance of the arrangement at inception date; namely, whether fulfilment of the arrangement is dependent on the use of a specific asset or assets or the arrangement conveys a right to use the asset.

MEASUREMENT

Finance lease receivables are recognised at an amount equal to the entity's net investment in the lease. This net investment in the lease is calculated as the sum of the minimum future lease payments and unguaranteed residual value discounted over the lease term at the rate implicit in the lease.

Rental Income from operating leases is recognised on a straight-line basis over the term of the relevant lease. The difference between the straight-lined lease payments and the contractual lease payments are recognised as either an operating lease asset or operating lease liability. An operating lease liability is raised to the extent that lease payments are received in advance (i.e. the straight-line lease payments are more than the contractual lease payments). The operating lease asset and / or operating lease liability are measured as the undiscounted difference between the straight-line lease receipts and the contractual lease receipts.

DERECOGNITION

Finance lease receivables are derecognised when the entity's right to the underlying cash flows expire or when the entity no longer expects economic benefits to flow from the finance lease receivable.

Operating lease liabilities are derecognised when the entity's obligation to provide economic benefits or service potential under the lease agreement expires. Operating lease assets are derecognised when the entity's right to the underlying cash flows expire or the entity no longer expects economic benefits to flow from the operating lease asset.

1.77 REVENUE

REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrues to the entity directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable, excluding indirect taxes, rebates and discounts.

RECOGNITION

Revenue from exchange transactions is only recognised once all of the following criteria have been satisfied:

- a) The entity retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- b) The amount of revenue can be measured reliably; and
- c) It is probable that the economic benefits or service potential associated with the transaction will flow to the entity and the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue arising out of situations where the entity acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the entity as compensation for executing the agreed services.

MEASUREMENT

Revenue from exchange transactions is measured at the fair value of the consideration received or receivable taking into account the amount of any trade discounts and volume rebates allowed by the entity.

Service charges relating to electricity are based on consumption by consumers as is recorded on each consumer's meter. Meters are read each month and revenue is recognised in the period that invoices are raised. Provisional estimates of consumption are made in periods when meter readings have not been able to be made. The revenue from provisional estimates of consumption is recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised in the period in which cash is received.

Service charges relating to refuse removal are raised and recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements, the category of property usage and the number of refuse containers on each property regardless of whether or not containers are emptied during the month.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified and once the terms of the agency agreement have been complied with.

Revenue from the sale of consumables and sundry items is recognised when the risk is passed to the consumer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

EXPENDITURE FROM EXCHANGE

Expenditure arising from exchange-transactions is similar to the policy for exchange revenue.

REVENUE FROM NON-EXCHANGE TRANSACTIONS

RECOGNITION

Revenue from non-exchange transaction arises when the entity either receives value from another entity without directly giving approximately equal value in exchange or gives value to another entity without directly receiving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset and there is not a corresponding liability in respect of related conditions.

MEASUREMENT

An asset that is recognised as a result of a non-exchange transaction is recognised at its fair value at the date of the transfer. Consequently, revenue arising from a non-exchange transaction is measured at the fair value of the asset received, less the amount of any liabilities that are also recognised due to conditions that must still be satisfied.

Where there are conditions attached to a grant, transfer or donation that gave rise to a liability at initial recognition, that liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants without any conditions attached are recognised as revenue in full when the asset is recognised, at an amount equalling the fair value of the asset received.

Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor.

Revenue from assessment rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts have been raised and are legally enforceable. Penalty interest is raised on unpaid rates after the due date for payment and is recognised on a time proportion basis.

Revenue from spot fines and summons are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset.

Donations are recognised when cash is received or when property, plant and equipment are brought into use.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

EXPENDITURE RELATING TO NON-EXCHANGE TRANSACTIONS

Expenditure arising from non-exchange transactions is similar to policy for non-exchange revenue.

1.78 HOUSING DEVELOPMENT FUND

The Housing Development Fund was established in terms on the Housing Act (Act 107 of 1997)

Sections 15 (5) and 16 of the Housing Act, which came into effect on 1 April 1998, required the Entity to maintain a separate housing operating account. This legislated separate operating account is known as the Housing Development Fund and is fully cash-backed.

In terms of section 14(4)(d)(ii)(aa), read with inter alia section 16(2), the Housing Act required that the net proceeds of any letting, sale or alienation of property, previously financed from government housing funds, to be paid into a separate operating account, and be utilised by the Entity for housing development in accordance with the National Housing Policy.

1.79 BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised to the cost of that asset unless it is inappropriate to do so. The municipality ceases the capitalisation of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered inappropriate to capitalise borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognised as an expense in surplus or deficit when incurred.

1.8 RETIREMENT BENEFITS

SHORT TERM EMPLOYEE BENEFITS

Short term employee benefits encompasses all those benefits that become payable in the short term, i.e. within a financial year or within 12 months after the financial year. Therefore, short term employee benefits include remuneration, compensated absences and bonuses.

Short term employee benefits are recognised in the Statement of Financial Performance as services are rendered, except for non-accumulating benefits, which are recognised when the specific event occurs. These short term employee benefits are measured at their undiscounted costs in the period the employee renders the related service or the specific event occurs.

1.81 POST-EMPLOYMENT BENEFITS

The Municipality operates various pension schemes. These schemes are funded through trustee administered funds. The Municipality has both defined benefit and defined contribution plans.

DEFINED CONTRIBUTION PLANS

A defined contribution plan is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid.

For defined contribution plans, the Municipality pays contributions to fund administrators. The Municipality has no further payment obligations once the contributions have been paid. The contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

DEFINED BENEFIT PLANS

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year they become payable. Natal Joint Superannuation & Retirement Funds are defined benefit funds. The Natal Joint Provident Fund is a defined contribution funds

The schemes are funded through payments to fund administrator or trustee-administered funds, determined by periodic actuarial calculations. The Municipality has both defined benefit and defined contribution plans.

Defined benefit plans have been accounted for as defined contribution plans in accordance with the requirements on multi-employer plans where sufficient information is not available to account for such plans as defined benefit plans. As the fund administrators do not have sufficient information available to allocate the shortfall on liabilities to individual employers, no liability is recognised for any shortfall of fund asset as compared to fund liabilities. Any surcharges that may be levied by the fund from time to time in order to compensate for shortfalls, are recognised as expenses in the period in which they become payable to the fund. As surcharges are advised long in advance, based on actuarial valuations of the fund as a whole, the necessary provision for the payment thereof is made in the course of the municipality's normal budgeting processes.

POST RE-TIREMENT HEALTH CARE BENEFITS

The liability recognised in the Statement of Financial Position is in respect of defined benefit plan for post employment health care benefits. The fund is actuarially valued each year using the discounted cash flow method. Any deficits identified by the actuary are recovered from the municipality in the form of surcharges added to the contributions which are recognised as an expense in the Statement of Financial Performance in the year that they become payable. Valuations of these obligations are carried out every year by independent qualified actuaries.

1.82 IMPAIRMENT OF NON-FINANCIAL ASSETS

RECOGNITION

The entity assesses at each reporting date whether there is an indication that an asset may be impaired. Where the carrying amount of an asset exceeds its recoverable amount (or recoverable service amount in the case of non-cash-generating assets), the asset is considered impaired and is written down to its recoverable amount (or recoverable service amount).

MEASUREMENT

An asset's recoverable amount (or recoverable service amount) is the higher of an asset's or cash-generating unit's fair value less costs to sell and its value-in-use. This recoverable amount (or recoverable service amount) is determined for individual assets, unless those individual assets are part of a larger cash generating unit, in which case the recoverable amount (or recoverable service amount) is determined for the whole cash generating unit.

An asset is part of a cash generating unit where that asset does not generate cash inflows that are largely independent of those from other assets or group of assets.

In determining the recoverable amount (or recoverable service amount) of an asset the entity evaluates the assets to determine whether the assets are cash generating assets or non-cash generating assets.

For cash generating assets the value in use is determined as a function of the discounted future cash flows from the asset. In assessing value-in-use for cash-generating assets, the estimated future cash flows are discounted to their present value using a discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, other fair value indicators are used.

Where the asset is a non-cash generating asset the value in use is determined through depreciated replacement cost, restoration cost approach or service units approach. The decision to the approach to use is dependent on the nature of the identified impairment.

Impairment losses of continuing operations are recognised in the Statement of Financial Performance in those expense categories consistent with the function of the impaired asset.

REVERSAL OF IMPAIRMENT

A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Statement of Financial Performance unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

IMPAIRMENT OF SPECIFIC NON-FINANCIAL ASSETS

PROPERTY, PLANT AND EQUIPMENT

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

INTANGIBLE ASSETS

The entity tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is performed at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Irrespective of whether there is any indication of impairment, the municipality also tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

INVESTMENT PROPERTY HELD AT COST

The entity tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an Investment Property is greater than the estimated recoverable amount, it is written down immediately to its recoverable amount and an impairment loss is charged to the Statement of Financial Performance.

HERITAGE ASSETS

Where the carrying amount of an item of heritage asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Where items of heritage asset have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

BIOLOGICAL ASSETS HELD AT COST

Where the carrying amount of an item of biological assets held at cost is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

Where items of biological assets held at cost have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of the impairment is recognised in the Statement of Financial Performance.

RELATED PARTIES

Parties are considered to be related if one party directly or indirectly has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions or is a member of the key management of the municipality. Refer to Note 46 - Related Parties

CAPITAL COMMITMENTS

A capital commitment is a binding agreement to undertake capital expenditure at some time in the future which has not yet become an actual liability

Less : Current portion transferred to current receivables	(5 710)	(5 785)
Total Non Current Receivables	-	-

HOUSING SELLING SCHEME LOANS

Loans have been granted to individuals who qualified in terms of the KwaZulu-Natal Department of Human Settlements programme. The loans are repayable over terms ranging from 5 to 30 years at interest rates varying between 11.25% and 13.5%. Title to many of these properties have been handed over to the beneficiaries in the 2015/16 financial year.

Notes to The Annual Financial Statements
for the year ended 30 June 2017

Note	2017	RESTATED 2016
	R	R
<u>Property rates past due but not impaired</u>		
Property rates which are less than 3 months past due are not considered to be impaired. At 30 June 2017 R3 413 311 (2016 R 702 174) were past due but not impaired.		
The ageing of amounts past due but not impaired is as follows:		
1 month past due	135 351	397 095
2 months past due	97 935	179 628
3 months past due	353 639	125 450
<u>Property rates impaired</u>		
As of 30 June 2017, property rates of R 24 309 102 (2016 R 21 462 492) were impaired and provided for.		
The ageing of these receivables is as follows:		
3 to 4 months	940 110	696 125
Over 4 months	22 010 942	19 719 770
The fair value of property rates approximates their carrying amounts.

	<u>25 478 000</u>	<u>25 478 000</u>

The investment property values are based on the valuation roll. The fixed date of the revaluations was 1 July 2016. Valuations were performed by an independent valuer, Mr Philip Carl Jacobs, Professional Valuer, Registration number 5375, of Umhlaba Geomatics Incorporated of Dundee. The valuer is not connected to the municipality and have recent experience in the location and category of the investment property being valued. The valuation was based on open market value.

Rental income from these properties amount to	1 496 832	1 494 967
---	-----------	-----------

No amounts were expensed towards repairs and maintenance costs for income generating investment properties

Details of investment properties are included in a register which is available for inspection at the municipal offices

Other creditors restated - (Refer to Note 39)	2 538 530	2 266 501
Total	26 219 089	19 249 968
The fair value of trade and other payables approximates their carrying amounts.		
12 CONSUMER DEPOSITS		
Electricity	4 524 999	4 186 021
Guarantees held in lieu of Electricity and Water Deposits	153 310	159 310
13 VAT PAYABLE		
VAT payable	1 989 346	2 040 003
VAT is payable on the receipts basis. VAT is paid over to SARS only once payment is received from debtors.		
14 PROVISIONS		
14 CURRENT PROVISIONS		
Current portion of long-service provision	529 132	657 874
Current portion of retirement benefit obligations	2 023 691	1 818 182
Total	2 552 823	2 476 056
14 NON-CURRENT PROVISIONS		
Provision for rehabilitation of landfill sites	6 468 820	7 819 740
Provision for long-service awards	4 084 863	4 151 203
Total Non-Current Provisions	10 553 683	11 970 943
Provision for rehabilitation of landfill sites		
Opening Balance	7 819 740	5 847 069
Unwinding discount	(1 350 920)	1 972 671
Balance at the end of year	6 468 820	7 819 740
The provision for rehabilitation of landfill sites relates to the legal obligation to rehabilitate landfill sites used for waste disposal. It is calculated as the present value of the future obligation, discounted at 10.5%, over an average period of 4.8 years.		
The provision created for the rehabilitation of the landfill site is based on Anderson Vogt Consulting Engineers assessment of the rehabilitation costs of the Glencoe dumpsite. A study will be done to determine the cost estimate in the near future		
The provision is calculated in line with the consulting engineers assessment as determined by discounting the present value of the estimate. The estimate for the prior year includes 14% VAT. Council intends to commence spending against the provision in 4.8 years.		
Provision for long-service awards		
Opening Balance	4 809 077	4 538 000
Contribution to provision	312 953	552 572
Expenditure incurred	(508 035)	(281 495)
	4 613 995	4 809 077
Transfer to current provisions	(529 132)	(657 874)
Balance at the end of year	4 084 863	4 151 203
The long-service award is payable after every 10 years and thereafter after 5 year intervals of continuous service.

38 CHANGE IN ACCOUNTING POLICY		
No adjustments were made to amounts previously reported in the annual financial statements of the municipality arising from a change in accounting policy.		
39 PRIOR PERIOD ERROR		
The following adjustments were made to amounts previously reported in the annual financial statements of the municipality arising from a correction of prior year errors.		
The comparative amount has been restated as follows:		
TRADE AND OTHER PAYABLES FROM EXCHANGE TRANSACTIONS		
<u>Other Sundry Creditors - Housing</u>		
During the current year a review was performed of Sundry accounts with no movement for the previous financial years. Sundry creditor accounts for Ring fenced housing was identified with credit balances. These account have no movement and should have been reversed during the changeover from IMFO to GRAP basis of accounting. These amounts do not meet the definition of a payables in accordance with GRAP and have been reversed to accumulated surplus. The effect of this correction in the prior year is reflected below:		
<u>Umzinyathi Creditor for Water and Sanitation</u>		
During the current year a review was performed of Sundry accounts with no movement from previous financial years. Sundry creditor accounts for Water and Sanitation was identified with long outstanding credit balances. These account have no movement and should have been reversed during the transfer of the Water and Sanitation function from Endumeni to the District. Balance confirmation have been performed with the District and these amounts do not meet the definition of a payables in accordance with GRAP and have been reversed to accumulated surplus. The effect of this correction in the prior year is reflected below:		
Balance previously reported 1 July 2016		22 501 024
Correction of error: Ring Fenced Housing		(742 949)
Correction of error: Umzinyathi Creditor		(3 798 444)
Debit Balances in Sundry Creditor accounts UDM Loan		1 290 337
Net effect on Statement of Financial Position		<u>19 249 968</u>
TRADE AND OTHER RECEIVABLES FROM NON-EXCHANGE TRANSACTIONS		
<u>Other Debtors</u>		
Balance previously reported 1 July 2016		13 218 355
Debit Balances in Sundry Creditor accounts UDM Loan		1 290 337
Net effect on Statement of Financial Position		<u>14 508 693</u>
PROPERTY PLANT AND EQUIPMENT		
<u>Repairs and Maintenance erroneously capitalised</u>		
During the year a review was conducted of all projects included in assets under construction. It was noted that included in asset under construction were amounts that did not meet the definition of an asset and should have been expensed. These amounts were capitalised prior to 1 July 2015. Assets such as road repairs and maintenance, electrical and building maintenance and RDP houses have now been expensed. The effect of the correction in the prior year is reflected below:

	2017	RESTATED 2016
	R	R
<u>Depreciation on completed projects not unbundled in prior years</u>		
During the year a review was conducted of all projects that were included in assets under construction for an extended period of time. It was noted that projects as far as 2011 were completed and in use however these projects were not unbundled and capitalised. Adjustments were made in the current year to release these assets from assets under construction and capitalise the unbundled amounts. Consequently Accumulated depreciation and depreciation in the prior year was affected by this exercise. The effect of the correction of this prior period error is reflected below:		
<u>Prepaid meters consumables erroneously included as assets</u>		
Upon review of the fixed asset register, it was noted that some prepaid meters were still included on the asset register. Municipal policy was to expense these to expenses as the prepaid meters do not meet the definition of an assets as the municipality does not have control of these items. Management embarked on a process in the 2015/16 financial year to remove these assets from the register. Some prepaid meter were however missed during this process and consequently a prior period adjustment has been made to remove these prepaid meters from the asset register. The effect of the correction of this prior period error is reflected below:		
<u>Newly identified assets erroneously expensed</u>		
During the physical asset verification process, a few assets were identified but could not be traced to the asset register. These assets were traced to invoices and it was noted that these assets were erroneously expensed in the prior year. An adjustment was made in the prior year to correct this error. The effect of the the correction of this prior period error is reflected below:		
Balance previously reported 30 June 2016		269 836 049
Repairs and Maintenance erroneously capitalised prior 1 July 2015		(16 198 862)
Depreciation on completed projects not unbundled in prior 1 July 2015		<u>(1 152 672)</u>
		252 484 515
Prepaid meters consumables erroneously included as assets		(1 587 069)
Newly identified assets erroneously expensed - General Expenses		19 454
Depreciation on completed projects not unbundled in prior years - Depreciation		<u>630 000</u>
Net effect on Statement of Financial Position		<u>251 546 901</u>
<u>Accumulated Surplus/(Deficit)</u>		
<u>Errors noted in Sundry creditors</u>		
In the current year a balance confirmation were sent out for long outstanding creditor balances which reflected no movement for past financial years. As a result the Housing Creditor was identified as a prior period error as it had not been correctly accounted for during the change from IMFO to GRAP Accounting. Credit balances for water and sanitation has also been identified as being incorrectly accounted for during the transfer of the water and sanitation function. The effect of these corrections is reflected below:		
<u>Errors noted in Property Plant and equipment</u>		
During the year a review was conducted on property, plant and equipment. It was noted that various items were included that should have been expensed. Certain assets should have been unbundled. Consequently adjustments were processed to correct the errors and the resultant adjustment to depreciation was made. Refer to prior period error note on Property, plant and Equipment. The effect of the correction of this error is reflected below:		
Balance previously reported 1 July 2016		263 030 710
Correction of error: Ring Fenced Housing		742 949
Correction of error: Umzinyathi Creditor		3 798 444
Repairs and Maintenance erroneously capitalised prior 1 July 2015		(16 198 862)
Depreciation on completed projects not unbundled in prior 1 July 2015		(1 152 672)
Prepaid meters consumables erroneously included as assets		<u>(1 587 069)</u>
		248 633 500
GENERAL EXPENSE - Newly identified assets erroneously expensed		19 454
DEPRECIATION - Depreciation on completed projects not unbundled in prior years		<u>630 000</u>
		<u>249 282 955</u>

42.8 Deviations of Supply Chain Management Policy		
Unveiling of Majuba Mhlungu Park - Dudukezani Funeral Home	1 200	
The MEC COGTA launched the CWP Programme at Endumeni and it was decided that the unveiling of the Majuba Mhlungu Park will also be done. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Repairs to Computer - Ethemba Computers & Consulting CC	3 235	
Urgent repairs had to be done to a computer that was infected by viruses and the data had to be restored. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Re-Imbursement for refreshments bought - CB Mkhize	4 819	
Refreshments for meetings and / or events hosted where the meeting lasted longer than expected or there was not enough time to follow the normal procurement processes. The deviations were duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Re-Imbursement for refreshments bought - HB Msane	1 500	
Refreshments were bought for people with albinism attending a case at Obonjeni, Manguzi Area. Normal processes could not be followed due to the event taking place outside of the Endumeni Area. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Washing and Cleaning of Councillor's Gowns - Indigo Dry Cleaners	1 060	
The awarding of the quote for the washing and cleaning of the Councillor's Gowns did not follow the usual procurement process as the service was anticipated to be less than R500.00 and would then be payable out of petty cash. The final account came to a total of more than what is allowed to be paid out of petty cash. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Re-Peg remaining sites at Dundee and Glencoe Cemetery - Umhlaba Geometrics	77 862	
The awarding of the quote for the re-pegging of the remaining sites at Dundee and Glencoe Cemetery did not follow the usual procurement process as the service provider is the only one that provides this service in the region. The deviation was duly authorised by the accounting officer and reported to council (B03/18/10/16-1)		
Service, repair, load test and certify Cherry Picker - Cranes and Hydraulics	70 325	
The awarding of the quote for the service, repair, load test and certification of the Cherry Picker as per the OHS Act did not follow the usual procurement process as the service provider is the sole provider. The deviation was duly authorised by the accounting officer and will be reported to council.		
Meals / food packs for 250 people attending Rural Dance - Chicken Licken Ulundi	35 100	
The awarding of the quote for the provision of meals / food packs for 250 people attending the Rural Dance in Nongoma did not follow the usual procurement process as there was no other service provider from Nongoma that could. The deviation was duly authorised by the accounting officer and reported to council (B03/18/10/16-1)		

Endumeni Municipality
NOTES TO THE FINANCIAL STATEMENTS
for the year ended 30 June 2017

	2017	RESTATED 2016
	R	R
Professional Service Agreement - E-Cloud	5 445	
The awarding of the quote for the provision of the Professional Service Agreement Document for technical services did not follow the usual procurement process as this is the sole service provider. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Review Municipal Policies and Systems - Moivox Management Consulting (Pty) Ltd	198 600	
The awarding of the quote for the review of the municipal policies and systems did not follow the usual procurement process. The review formed part of the repositioning of the municipality in the new term. The deviation was duly authorised by the accounting officer and reported to council. (B03/18/10/16-1)		
Programme Director at the Matric Prayer Event - C Mbokazi	8 500	
The awarding of the quote for the programme director at the matric prayer event did not follow the usual procurement process as the municipality was unable to obtain quotes for this service. The deviation was duly authorised by the accounting officer and will be reported to council.		
Emerging Local Artists - Thembokuhle Thisuni (Mgqoneni no Ntathakusa)	3 000	
- Ubuhle Besicence Group	5 000	
- Ntombela MC (Mtolo One Group)	3 000	
The awarding of the quote for the performance at events did not follow the usual procurement process as these are emerging local artists providing unique traditional music and that are not registered on the database. The deviations were duly authorised by the accounting officer and will be reported to council.		
Repairs to Refuse Truck - Vryheid Gearbox Centre cc	43 890	
The awarding of the quote for the repairs to the refuse truck did not follow the usual procurement process as the company had to strip and quote NDE 14034. The deviation was duly authorised by the accounting officer and will be reported to council.		
Amendments to website - GW Soft Consulting cc	30 552	
The awarding of the quote for the amendments to the website did not follow the usual procurement process as the municipality does have a contract with the service provider but the work that needed to be done was additional scope. The deviation was duly authorised by the accounting officer and will be reported to council.		
Training and purchase of scanners - PriceWaterHouseCoopers Inc	89 718	
The awarding of the quote for the training on the BAUD asset system and the purchase of scanners for asset management did not follow the usual procurement process. PWC BAUD was the sole provider. The deviation was duly authorised by the accounting officer and will be reported to council.		
Publication of Advert in National Newspaper - Ilanga Mandla-Matla Publishing	44 889	
The awarding of the quote for the publication of adverts in a national newspaper did not follow the usual procurement process as the notices had to be placed in the Ilanga Newspaper and they are the sole provider. The deviation was duly authorised by the accounting officer and will be reported to council.		
Local artists performing at event - Iqophelo Sgidi Trading	7 000	
The awarding of the quote for the performance at an event did not follow the usual procurement process as these are emerging local artists providing unique traditional music and that are not registered on the database. The deviation were duly authorised by the accounting officer and will be reported to council.		
Television Broadcast Services - Bay Community Television t/a 1KZN TV	199 000	
The awarding of the quote for the broadcast of television services did not follow the usual procurement process as the targeted audience could only be reached through 1KZN TV. The deviation was duly authorised by the accounting officer and will be reported to council.

Service cost (next financial year)	2 577 615	2 102 384 1 734 956

45 CONTINGENT LIABILITY

TP Biyela vs. Endumeni

The municipal manager of Endumeni Municipality had previously been on suspension pending the outcome of investigations into alleged irregularities. This case has now been closed and Mr TP Biyela has resumed duties at the municipality.

Endumeni Municipality
NOTES TO THE FINANCIAL STATEMENTS
for the year ended 30 June 2017

	2017	RESTATED 2016
	R	R
W Ndlela vs. Endumeni		
Mr Ndlela was summarily dismissed for misconduct. This matter was finalised in favour of the municipality and the matter was then taken by Mr Ndlela to labour court for review. Settlement has been reached and the matter has now been closed. Mr Ndlela has commenced duties at the municipality.		
Endumeni/EJ Mbeje		
The appointment of Mr Mbeje was at the time that the suspended Municipal Manager had returned to office. In accordance with a Council resolution that was taken ultra vires, the appointments have been declared as illegal by the council, and the employees' services had been terminated. The matter has now been closed and Mr Mbeje has been awarded compensation equivalent to 12 months salary.		
Endumeni/SP Madlala		
Mr Madlala was unprocedurally promoted and given a salary increase during the period of instability at the municipality. The decision to do so was never approved by council, and the salary increase was reversed. Mr Madlala lodged unfair labour practice dispute at bargaining council. Arbitrator ruled in favour of the municipality. Ruling has been taken on review by SAMWU. Attorney's await further instruction from Endumeni.		
PG Mabilisa		
The matter was about an unfair dismissal of Mr. PG Mabilisa, the disciplinary hearing took place and the matter was concluded in favour of the municipality. The decision was appealed and taken to CCMA. This matter has now been closed and Mr PG Mabilisa has assumed duties at the municipality.		
Mrs CB Mkhize	290 000	
The Chief Financial Officer had been placed on suspension. A disciplinary hearing had been set down for the 22 to 24th August 2017. Several other legal cases in connection with the chief financial officer were also pending, being the review of the arbitration award, an urgent application to set aside the award and another arbitration matter was set done for the 10th August 2017. All the disputes were settled on the instruction of the Municipal Manager and a settlement agreement has been drafted awaiting approval of council.		
Endumeni Civic Association	150 000	
This a high court matter brought on by the Endumeni Civic Association. Endumeni Municipality is the first respondent. The matter is set down for the 30th October 2017.		
Endumeni Municipality VS Mbube Security & Ocean Dawn	40 000	
This matter has not been finalised. Attorneys awaiting instruction from council whether to set down or concede.		
ZW Anderson	8 000	
This matter is an eviction dispute between the Anderson's which have been served on Endumeni. The matter has not been finally set down.		
Endumeni Municipality VS Department of Labour	1 500 000	
Endumeni Municipality received summons from the Department of Labour for non-compliance with the deadline for submission of the Employment Equity Plan. The municipality intends to oppose the matter and the matter will be referred to council's attorneys.

	R	R
46 RELATED PARTIES		
Related party transactions: Councillor E Adam		
<u>Expenditure:</u>		
General expenses for July 2016	6 933	60 643

Nature of transaction: Councillor E Adam who was a councillor in the month of July 2016 prior to the election whose spouse is the owner of a business that sells computer validated pre-paid tokens for the supply of electricity. A commission of 3.5% is paid monthly for providing this service. No commission is payable at year end.

47 EVENTS AFTER THE REPORTING DATE

No events after the reporting date noted for disclosure.

48 RISK MANAGEMENT

Maximum credit risk exposure

Credit risk consists mainly of cash deposits, cash equivalents and trade debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

The municipality does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.
Financial assets exposed to credit risk at year end were as follows:

Except as detailed below, the carrying amount of financial assets recorded in the Annual Financial Statements, which is net of impairment losses, represents the municipality's maximum exposure to credit risk without taking account of the value of any collateral obtained:

Cash and Cash Equivalents	53 373 593	68 344 812
Financial guarantees	153 310	159 310
Trade and other receivables	16 029 640	19 455 024
Maximum Credit Exposure	69 556 543	87 959 146

These balances represent the maximum exposure to credit risk.

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk.

49 RESTATEMENT OF COMPARATIVE INFORMATION

The municipality has early adopted the Municipal Standard Chart of Accounts (MSCOA). In order to comply with MSCOA, the Repairs and Maintenance expenditure has been reclassified as contracted services. The effect of the restatement is summarised below:

Statement of Financial Performance:

Repairs and Maintenance	(9 161 898)
Contracted Services - Repairs and Maintenance	9 161 898
	<u>-</u>

50 COMPARISON WITH THE BUDGET

The comparison of the Municipality's actual financial performance with that budgeted is set out in Annexures E(1) and E(2)

50. COMPARISON TO BUDGET ANNEXURE E (1)

50.1 ACTUAL VERSUS BUDGET (REVENUE AND EXPENDITURE)

	Actual 2017 R	Budget 2017 R	Variance 2017 R	Variance 2017 %	Explanation of significant Variance greater than 15% versus Budget
